

THE WORK OF LEADERS

VISION, ALIGNMENT, AND EXECUTION

Workshop Overview

Analyze leadership as a one-to-many relationship, as opposed to the one-to-one relationship in managing. The Work of Leaders focuses on tangible steps directed at leading a group or organization toward desired outcomes. Using the framework of Vision, Alignment, and Execution, this workshop incorporates the concepts of Everything DiSC® to encourage leaders to understand their own leadership styles and how they impact their effectiveness on an individual and organizational level.

By the end of this workshop, participants will:

- Learn about the background of The Work of Leaders, discover what drives their leadership priorities, and begin to learn how to develop the behaviors required in **creating a vision** statement.
- Explore the drivers of **aligning** a vision, understand the behaviors that characterize each driver and discover how you approach each driver that helps aligns a vision in an organization.
- Analyze the drivers of **executing** the vision, understand the behaviors required for each driver of execution and discover how you approach each driver of alignment. In addition to the learning, each participant will complete a personal action plan based on their strengths and weaknesses.
